DAY 1 – THURSDAY, 07 JUNE 2018
TOPIC: Sarcoidosis

09.30 - 10.30  "Granuloma Biology Symposium: Etiology and Pathogenesis of Sarcoidosis/ Part A"
Chairs: D. Culver, P. Rottoli
- Overview of sarcoidosis models, J-F. Bernaudin
- Regulation of innate immune responses in sarcoidosis, T. Weichhart
- The strange relationship between primary immunodeficiency and sarcoid granulomas: all that glitters is not sarcoidosis, C. Agostini

10.30 - 11.00  COFFEE BREAK

11.00 - 12.00  "Granuloma Biology Symposium: Etiology and Pathogenesis of Sarcoidosis/ Part B"
Chairs: D. Israël Biet, J. Grutters
- Genetic determinants of granuloma formation in sarcoidosis, J. Müller-Quernheim
- New therapeutic strategies tackling granuloma formation in sarcoidosis, A. Prasse
- Non Sarcoid Granulomas, H. Nunes

12.00 - 12.30  Discussion
Discussants: D. Culver, M. Kolb, B. Crestani

12.30 - 13.00  "Lecture: Iatrogenic respiratory disease: knowns and unknowns"
Chair: A. Wells
Speaker: P. Camus

13.00 - 14.30  LUNCH BREAK
DAY 1 – THURSDAY, 07 JUNE 2018
TOPIC: Sarcoidosis (cont.)

14.30 - 16.00  “Clinical Symposium: Danger versus quality of life”
   Chairs: A. Wells, U. Costabel, N. Tzanakis
   - Opening conceptual talk, illustrated by identifying danger in pulmonary sarcoidosis, D. Culver
   - Cardiac sarcoidosis, V. Kouranos
   - Other forms of dangerous sarcoidosis, U. Costabel
   - The treatment approach for impaired quality of life, M. Drent

16.00 - 17.00  “Poster Discussion (selected)”
   Chairs: J. Grutters, H. Nunes

17.00 - 17.30  COFFEE BREAK

17.30 - 19.00  “Challenges in Pulmonary Hypertension in Sarcoidosis”
   Chairs: D. Valeyre, M. Humbert
   - The diagnosis of PH in sarcoidosis, O. Sitbon
   - Pathomechanisms of PH in sarcoidosis, M. Humbert
   - Treatment data in sarcoidosis, B. Baughman
   - Trial design and end-points in sarcoidosis, D. Valeyre

19.30  OPENING CEREMONY
   “Keynote Lecture: Should I treat Pulmonary Hypertension in Chronic Lung Diseases ?”
   Speaker: M. Humbert

Welcome Messages:
   - Prof. A. Arata, WASOG President
   - Prof. M. Gaga, ERS President
   - Prof. O. Zoras, Rector, University of Crete
DAY 2 — FRIDAY, 08 JUNE 2018
TOPIC: Pulmonary Fibrosis

08.30 - 10.00  “Diagnosis in IPF 2018”
Chairs: A. Wells, U. Costabel, D. Bouros
- The integrated diagnostic pathway in IPF, G. Raghu
- BAL: does it still have a major role in ILD diagnosis?, C. Ravaglia
- The current role of cryobiopsy in ILD diagnosis, V. Poletti
- Surgical biopsy in ILD in 2018, M. Kreuter

10.00 - 10.30  COFFEE BREAK

10.30 - 11.00  “Debate: Autoimmunity/inflammation is important in IPF”
Chairs: B. Crestani, K. Antoniou

Pro: C. Vancheri
Con: A. Gunther
Discussion

11.00 - 12.00  “Emerging Concepts in ILDs”
Chairs: C. Cordeiro, V. Poletti

- ILA: do they hold the key to understanding IPF?, S. Tomasetti
- New biomarker data in IPF: do they provide pathogenetic insights?, G. Jenkins
- MSCs therapy in IPF, M. Glassberg
DAY 2 – FRIDAY, 08 JUNE 2018
TOPIC: Pulmonary Fibrosis (cont.)

12.00 - 13.30  SATELLITE SYMPOSIUM “Recent Advances in Fibrosing Interstitial Lung Diseases”

Sponsored by Boehringer Ingelheim

13.30 - 15.00  LUNCH BREAK

15.00 - 16.00  "Selected Oral Presentations"
Chairs: P. Rottoli, W. Wuyts

16.00 - 16.30  "Debate: Genetic testing should be performed routinely in IPF"
Chairs: T. Vassilakopoulos, M.Molina-Molina

Pro: B. Crestani
Con: J. Grutters
Discussion

16.30 - 17.00  COFFEE BREAK

17.00 - 18.30  SATELLITE SYMPOSIUM “IPF and beyond – latest insights”

Sponsored by Roche International

18.30 - 20.00  "Diagnosis in ILDs”
Chairs: A. Wells, K. Antoniou, S. Schiza

- Genomic diagnosis in ILDs, M. Molina - Molina
- Current imaging in ILD, S. Walsh
- Future imaging in ILD, J. Jacob
- Multidisciplinary Diagnosis in ILDs, D. Castillo
DAY 3 – SATURDAY, 09 JUNE 2018
TOPIC: Connective Tissue Disorders & Rare Diseases

09.00 - 10.30  "CTD and Rare Diseases symposium"
Chairs: S. Papiris, P. Sidiropoulos
- Genetic insights in the pathogenesis of rheumatoid arthritis - interstitial lung disease, P. Dieudé
- IPAF, V. Cottin
- Pulmonary alveolar proteinosis, F. Bonella
- Pulmonary Histiocytosis, S. Harari

10.30 – 11.00  “Lecture: Severe Asthma: an orphan disease?”
Chairs: M. Gaga, M. Humbert
Speaker: S. Loukides

11.00 - 11.30  COFFEE BREAK

11.30 - 12.00  "Lecture: Update from the 6th World Symposium on Pulmonary Hypertension, Nice 2018”
Chair: N. Galie
Speaker: M. Humbert

12.00 - 13.00  "Palliative care in ILD”
Chairs: C. Cordeiro, Z. Daniil
- Overview, M. Wijsenbeek
- Insights from clinical practice, E. Lower
- Future research in palliative care, S. Bajwah

Chairs: M. Humbert, K. Antoniou
Speaker: L. Mouthon
13.30 – 14.00  “Lecture: Fibrosis, COPD and autoimmunity- common links”
   Chairs: K. Tzanakis, Th. Vassilakopoulos
   Speaker: K. Antoniou

14.00 - 15.00  BREAK

15.00 - 16.00  "Clinical trials in ILD”
   Chairs: M. Kolb, P. Rottoli
   - Future end points, P. Spagnolo
   - Patient stratification by genomic and biomarker profiles, M. Kolb
   - Trial design and end-points in ILDs, W. Wuyts

16.00 - 17.00  "Hot Topics in ILDs”
   Chairs: R. Chambers, B. Crestani
   - Macrophage lineage and phenotypes in fibrotic disease, A. Byrne
   - Microbiome in IPF, P. Molyneaux
   - Cell Senescence in IPF, M. Rojas

17.00  CLOSING CEREMONY
   Closing Lecture: “Mechanistic overlap between IPF and cancer: focus on the TGFβ signaling axis”
   Speaker: R. Chambers
