

CURRICULUM VITAE

NAME: BIBAKI ELENI

SEX: FEMALE

ADDRESS: ANO ARCHANES, HERAKLRION, CRETE, CREECE.

DATE OF BIRTH: 04/09/1984

NATIONALITY: GREEK

I am a respiratory specialist, trained and graduated from the respiratory clinic of the university hospital of Heraklion. Currently i work as a consultant physician in the respiratory department of general Venizeleio hospital of Heraklion since March of 2017. My research interest is focused on the field of interstitial lung diseases and especially the area of the pathogenesis idiopathic pulmonary fibrosis. I am a fellow worker at the respiratory lab of the university of Crete since 2013. The theme of my PHD thesis is : «The study of the expression of genes controlled by miRNAs and epigenetic mechanisms in alveolar macropahges from bronchoalveolar lavage fluid of patients suffering from idiopathic pulmonary fibrosis”. The results of the above mentioned study have been recently published. Moreover, i have participated in several international and national congresses with oral presentations. Studies that i have involved in as a first author or as a co-author in the field of idiopathic pulmonary fibrosis have been published in 12 international and 12 greek journals. I am also attending a postgraduate program regarding geriatrics and chronic diseases in the Open Hellenic University.
