

Marlies Wijsenbeek is a pulmonary physician at the Erasmus University Medical Centre in Rotterdam, a national expert centre for interstitial lung diseases and sarcoidosis in the Netherlands.

Dr Wijsenbeek is chair of the multi-disciplinary academic centre of excellence for ILD and sarcoidosis and co-organises ILD courses. Since 2012, she is deputy head of the department of pulmonary medicine at the Erasmus MC. She is member of the board of the Netherlands Respiratory Society.

Her research interests include patient centred outcome measures in ILD, e-health, cough in IPF and new therapies in IPF and sarcoidosis. Dr Wijsenbeek is secretary of the Idiopathic Interstitial Pneumonias group of the European Respiratory Society, secretary of the Dutch National ILD section and member of the (scientific) advisory boards of the European Idiopathic Pulmonary Fibrosis & Related Disorders Federation, Dutch Sarcoidosis Patient Association and the Dutch Pulmonary Fibrosis Patient Association.
