

Philippe Dieudé, MD, PhD, is Professor of Rheumatology at the Paris Diderot University in Paris, France. In addition to his academic responsibilities, he is the head of the Rheumatology Department, Bichat-Claude Bernard Hospital, Assistance Publique des Hôpitaux de Paris, France. His research focuses on genetics of autoimmune diseases, biomarkers for rheumatoid arthritis and systemic sclerosis, and more recently to the physiopathogenesis of rheumatoid arthritis interstitial lung disease (RA-ILD). In 2017, he joined the laboratory of Prof. Bruno Crestani at the Institut National de la Santé et de la Recherche Médicale unit 1152 to develop his research on the genetics of RA-ILD. He is a reviewer of many international journals. He has (co-) authored over 200 papers and book chapters and is regularly invited speaker and/or chairman at international conferences, seminars and meetings.
